

Consultations

Initial Consultation	£200
Initial Consultation with Pelvic Scan	£395
Follow-up Consultation	Free
Once appointment offered after an unsuccessful IVF/ICSI, Frozen Embryo Transfer, Egg donation cycle if accessed within 3 months of the failed cycle	
Follow-up Consultation	£150
Urology Consultation	£300

Female Fertility Ultrasound and Diagnostic Tests

Fertility Wellness Check	£480
Fertility scan and AMH blood test, 30 minute consultation	
Initial Baseline Scan	£220
3D Investigation Scan	£200
3D Aqua or Saline Scan	£395
HyCoSy with Saline Scan	£450
Pregnancy Scan	£200

Male Fertility Assessment and Diagnostic Tests

Semen Analysis	£150
Semen DNA Fragmentation	£423
24hr Sperm Survival Test	£110
Semen Culture and Sensitivity	£100
Sperm Aneuploidy	£862

Treatment Packages

Treatment	Inclusions	Price
Monitoring Process	3 ultrasound monitoring scans, cycle management, one follow-up consultation	£850
Intrauterine Insemination	Nurse consultation, Initial baseline scan, ultrasound monitoring, cycle management, sperm preparation, IUI procedure	£1,100
Natural Cycle IVF	Nurse Consultation, one free counselling session, Initial baseline scan, ultrasound Monitoring, Cycle Management, Egg collection under Sedation, Sperm preparation, Fertilisation, Assisted Hatching, Embryo culture (Includes blast culture if applicable), Embryo Transfer, First BHCG, First Pregnancy Scan	£3,250
Stimulated IVF	Nurse Consultation, one free counselling session, Initial Baseline Scan, ultrasound Monitoring, Cycle Management, Egg collection under Sedation, Sperm preparation, Fertilisation, Embryo culture (Includes blast culture if applicable), Embryo Transfer, First BHCG, First Pregnancy Scan.	£3,700
Embryo Freezing Cycle	Nurse Consultation, one free counselling session, Initial Baseline scan, ultrasound Monitoring, Cycle Management, Egg collection under Sedation, Sperm preparation, Fertilisation, Embryo culture (Includes blast culture if applicable), Embryo storage for 1 year.	£4,400
Embryo Freezing Cycle with ICSI	Nurse Consultation, one free counselling session, ultrasound Monitoring, Cycle Management, Egg collection under Sedation, Sperm preparation, ICSI Fertilisation, Embryo culture (Includes blast culture if applicable), Embryo storage for 1 year.	£4,950
Frozen Embryo Transfer	Nurse Consultation, ultrasound Monitoring, Cycle Management, Embryo Thaw, Assisted Hatching (if applicable) Embryo Transfer, First BHCG, First Pregnancy scan	£1,950
Frozen Embryo Transfer Post PGT	Nurse Consultation, ultrasound Monitoring, Cycle Management, Embryo Thaw, Embryo Transfer, First BHCG, First Pregnancy scan	£1,750
Egg Freezing Cycle	Nurse Consultation, Initial Baseline Scan, ultrasound Monitoring, Cycle Management, Egg collection under Sedation, Egg Freezing, Egg storage for 1 year	£3,400
Egg Thaw, ICSI and Fertilisation	Nurse Consultation, ultrasound Monitoring, Thawing of Eggs, Sperm preparation, Fertilisation, Embryo culture (Includes blastocyst culture if applicable), Embryo Transfer, First BHCG, First Pregnancy Scan	£2,900

Multicycle Packages

Treatment	Inclusions	Price
Duo-Stim with ICSI	Nurse Consultation, ultrasound Monitoring of Cycle (x2), Egg collection under Sedation (x2), Sperm preparation (x2), Fertilisation (x2), Embryo culture (x2) (Includes blast culture if applicable), embryo freezing (x2) including first year of storage. Duo stim is a treatment where 2 egg collections are done in the same cycle. Aimed at women with a diminished ovarian reserve. Duo Stim will be only offered when suitability is assessed by the doctor.	£9,100
Smart Choice Duo	2 egg freezing cycles. Must be used within 6 months of first cycle	£5,950
Smart Choice Trio	3 egg freezing cycles. Must be used within 12 months of first cycle	£8,540
Embryo Freezing Duo	2 embryo freezing cycles. Must be used within 6 months of first cycle. ICSI not included and if needed will be charged an additional £1800. Includes 1 year storage	£8,300
Embryo Freezing Trio	3 embryo freezing cycles. Must be used within 12 months of first cycle. ICSI not included and will be charged an additional £2400. Includes 1 year storage	£11,995
2 embryo freezing cycles with a fresh transfer	1 cycle of embryo freezing followed by 1 cycle of fresh embryo transfer. Must be used within 6 months of first cycle. ICSI charged at £1800 (if applicable). Embryo freezing after second cycle (if applicable) charged at £500. Includes 1 year storage (starts from when first embryo frozen).	£7,600
3 embryo freezing cycles with a fresh transfer	2 cycle of embryo freezing followed by 1 cycle of fresh embryo transfer. Must be used within 12 months of first cycle. ICSI charged at £2400 (if applicable). Embryo freezing after third cycle (if applicable) charged at £400 Includes 1 year storage (starts from when first embryo frozen)	£12,300

Treatment Packages

Exclusions	Price
HFEA Fee	£80
Medication	Variable
Monitoring Blood Test Required every 2 days prior to trigger. Minimum of 4 needed.	£112.50
Progesterone Blood Test	£55
Injection administration up to 17:00	£50
Injection administration after to 17:00	£200
Donor Preparation Includes implications counselling for the donor, donor investigations and screenings, treatment planning	£1,500
Donor Compensation (non-refundable in compliance with HFEA guidelines)	£750

Genetic Testing of Embryos (PGT)

PGS Next Generation Sequencing Analysis of up to 5 embryos	£950 biopsy fee + £500 per embryo
Analysis of 6-8 embryos, includes biopsy fee	£3300
Extra embryos over 8	£250 per embryo
PGD with Karyomapping Includes biopsy analysis of up to 8 embryos, freezing and storage of embryos for an initial 3 months. additional embryos will be charged at £250 per embryo. It includes a non-refundable work-up fee of £400 in case of cancellation after the work-up has been done.	£4950

Embryology and Laboratory Procedures

Assisted Hatching	£500
Embryoscope	£500
Intracytoplasmic Sperm Injection (ICSI)	£1000
PICSI (ICSI with special sperm selection)	£200
Blastocyst Culture	Included
Embryo Freezing Including first year of storage	£935
Sperm Freezing prior to IVF Including first year of storage	£500
Additional sperm sample for freezing This is per sample and needs to be done within 2 months otherwise full freeze cost applies	£150
Annual Storage Fee	£350
Donor Sperm Depending on type and availability	Price varies
Movement of frozen samples administration fee Storage not included	£210
HFEA Import license application fee	£475

Other Procedures

Embryo Transfer under sedation	£550
Dummy Embryo Transfer	£300
Endometrial Scratch	£250
Ovarian Cyst Aspiration with sedation	£945
This includes sedation, theatre fees, anaesthetist and surgeon fees	
Cervical Smear	£200
Surgical Sperm Retrieval (PESA/TESA)	£1,400
If sperm is retrieved, a storage fee of £300 per year whilst in storage is chargeable	
Non-Invasive Prenatal Testing	
NACE Basic	£502
only chromosomes 13, 18, 21 and sex chromosome abnormalities	
NACE 24	£712
detection of all 24 chromosomes	
NACE Extended 24	£862
detection of all 24 chromosomes plus 6 microdeletions	
Carrier Screening (CGT600)	£975
Endometrium Testing	
Endometrium Receptivity Array (ERA)	£1,042
Analysis of Infectious Chronic Endometritis (ALICE)	£442
Endometrial Microbiome Metagenomic Analysis (EMMA)	£742
– includes ALICE test	
Endome TRIO (includes ERA and EMMA)	£1,342

Blood Investigation and Immunology Blood Tests

VF1 – Fertility Wellness Check (FSH; Oestradiol (E2); AMH)	£150
VF2 – Female Screening FBC, HIV 1&2, HBsAg, HBcAb, Anti HCV, HTLV 1&2, Chlamydia Urine, Rubella, Gonorrhoea	£270
VF3 – Male Screening HIV 1&2, HBsAg, HBcAb, Anti HCV, HTLV 1&2, Chlamydia Urine, Gonorrhoea	£240
VF4 – Monitoring Profile FSH (if applicable), LH, E2	£112.50
VF5 – Recurrent Miscarriage Female Partner Blood chromosome analysis, thrombotic risk profile, thyroid profile 2, antinuclear antibody, PAI1 (Plasminogen Activator Inhibitor 1), Lupus Antibodies and Cardiolipin Antigen	£1,840
VF6 – Polycystic Ovarian Syndrome Testosterone, TSH, DHEAs, 17-hydroxyprogesterone, prolactin, AMH, androstenedione, SHBG	£340
VF7 – Female Egg Donor FBC; Blood Group/Rh; Hep A Abs; Hep B Surface Antigen; Hep C Abs; HIV 1&2; Syphilis IgG/IgM; Cystic Fibrosis; Blood Chromosomes; CMV; HTLV I/II; Rubella IgG; Chlamydia Urine; Gonorrhoea; Vaginal Culture swab	£1,094
VF8 – Male Sperm Donor Blood Group/Rh; Hb Electrophoresis; Hep A Abs; Hep B Surface Antigen (NAAT and serology); Hep C Abs (NAAT and serology); HIV 1&2 (NAAT and serology); Syphilis IgG/IgM; Cystic Fibrosis; Blood Chromosomes; CMV; HTLV I/II; CT/GC Urine	£1,180
VF9 – Egg Recipient/Sperm Recipient FBC; Blood Group/Rh; HIV 1&2; HBsAg; HBcAb; Anti HCV; HTLV 1&2; CMV IgG/IgM; Chlamydia Urine, Gonorrhoea	£270
VF10 – Monitoring Profile 2 E2, LH	£60
VF11 – Trigger Profile E2, LH, Progesterone	£90
VF12 – OHSS Profile E2, FBC, U&Es, LFTs, Clotting screen	£120
VF13 – Severe Male Factor Profile CF screen, Y Deletion, Blood Chromosomes/KARY, FSH, LH, Prolactin, Testosterone	£940

Additional Information

- If the fresh IVF cycle does not result in a positive pregnancy a follow up consultation will be included in the package, if accessed within 3 months of failed cycle.
- Medications is not part of any packages and will vary from patient to patient.
- Blood investigations are not part of any packages and will be charged as per IVF LONDON price list.
- Scan will be charged at £150 for each scan if cycle cancelled at any point.
- Should you require an injection administered there is a fee of £10 per injection / appointment.
- Payment for all the services provided by IVF LONDON are required in full before commencement of the treatment service.
- Our price list is reviewed regularly, and all prices are subject to change. Any quoted treatment fees provided as per our individually costed treatment plans will be valid for a period of 2 months.

Refunds and cancellation:

IVF LONDON appreciates that there are a number of reasons that a patient may decide not to proceed with their treatment or treatment is discontinued for medical reasons. In these circumstances a full or partial refund may apply depending on the treatments delivered so far. Refunds will be made by bank transfer or by cheque. Further details of the cancellation fees per treatment type are as follows:

IVF, ICSI, egg freezing or egg donation cycle

- If an IVF, ICSI, egg freezing, or egg donation cycle is discontinued for medical reasons after the drugs have started and before any eggs are collected, there will be a refund of the IVF treatment package cost less the cancellation fee. If no eggs are collected or eggs do not fertilise, then no refund can be made.
- If you are having an IVF or ICSI cycle and your embryo transfer is cancelled because of a medical reason, your embryos will be frozen. You will be asked to pay for freezing your eggs or embryos.
- We do not refund any costs relating to the pre-treatment procedures or drugs.

IUI

- If insemination does not take place, but you have already started the stimulation drugs, a refund will be given less the cancellation fee.
- We do not refund any costs relating to the pre-treatment procedures or drugs.
- If you start an IUI cycle but the cycle is converted to IVF, you will be asked to pay the additional cost which is the difference between the cost of IUI and IVF.

Donor sperm cycle

- If your treatment using donor sperm is cancelled for any reason, then a refund will be offered according to the criteria as set out above, depending on the type of cycle.
- Payment for the donor sperm cannot be refunded

FET

- If an FET cycle is cancelled for medical reasons before your embryos are thawed, we will refund the full cost of the treatment package less a cancellation fee.
- If the embryos are thawed they fail to thaw successfully, there will be no refund. We are not able to refund the cost of drugs.

Cancellation fees:

A cancellation fee will be applicable if a cycle is abandoned, to cover the costs already incurred.

- Cancelled IVF or ICSI cycle before egg collection £ 600
- Cancelled IUI cycle prior to insemination £ 350
- Cancelled FET prior to embryo thaw £ 500
